

# your **SINGLE** solution **SOURCE**

## ENVISION IT.

you have a vision. we make it a reality. you provide us with your ideas, notes and sketches. we present you with a fresh, innovative design. you communicate with one source from conception to completion. we save you time and money. you make immediate decisions and have more control over every phase of the project. we balance risk and responsibility and assemble the ideal team to complement your project. you identify your needs and priorities. we provide the layout and budget pricing at no cost. you give us the green light, relax and enjoy the ride. we take care of you every step of the way. together, we celebrate success.

## DESIGN IT.

master planning. site layout and development. project engineering. interior and exterior design. general construction. innovative, progressive thinking. from concrete to carpet tile, our team of in-house design and engineering professionals combined with the latest state-of-the-art technology ensures that no detail is left untouched. our conceptual design capabilities allow you to visualize your project, choose colors and fixtures, take a virtual walk-thru and determine just that perfect place to locate the coffee breakroom all individuals so desire. trust us - your people will thank you for it.

## BUILD IT.

proven 140-year history of success. 30 skilled craftsmen. a professional engineering staff. LEED certified. direct project supervision. high quality, cost-effective and professional. your single source solution for design, zoning/ permitting, construction and facility maintenance. we maximize communication, minimize confusion and put your project on the fast-track to completion. commercial and retail. manufacturing, distribution and industrial. government and health care. historic renovation, religious and specialty. whatever your project: we build it and they will come.

# SEUFERT CONSTRUCTION

design/build contractor

## OUR MISSION.

our focus. our promise. our reminder.  
we operate with a true dedication to provide you, our customer, with a high-quality product in a safe and cost-effective manner. we promise to be professional and ethical, nurture long-term relationships, encourage innovative thinking and recognize that our success is a result of yours. we are reminded daily of the opportunity you have given us and of the important role we play in taking your organization to the next level.

## OUR EXPERTISE.

in design. in engineering. in construction.  
we realize that a highly-qualified staff combined with the latest technology produces results that are second to none. we take pride in being the only local contracting firm with in-house design and engineering capabilities, providing us the unique ability to be your single-source solution from conception to completion.

## OUR COMMITMENT.

to our community. to our employees. to you.  
we place emphasis on developing our local economy and are proud to have a reputation deeply rooted in community involvement. we strive for quality and professionalism by investing in our employees, their trade and their skills. we understand that our relationship with you, our customer, is paramount to success and that your needs must be met with progressive action, optimism and the motivation to succeed.
